Open to Remote Opportunities Across Pakistan, Europe, UK, USA & Canada

PROFESSIONAL SUMMARY

SEO Executive and Content Strategist with 5+ years of experience delivering measurable organic growth for brands across the USA, UK, and Canada. Currently managing 25+ client accounts at Allure Digital, consistently achieving 40-70% increases in organic traffic and securing first-page rankings across competitive niches. I handle the full SEO lifecycle — technical audits, on-page, off-page, GMB optimisation, and AEO-driven content that performs in both traditional search and AI-powered platforms like ChatGPT, Perplexity, and Google AI Overviews. I also lead and mentor junior writers and freelancers, ensuring every deliverable meets the highest standard before it goes live. The goal is always the same: turning search intent into rankings, traffic, and real business results.

WORK EXPERIENCE

Allure Digital

SEO Executive & SEO Content Specialist

Nov 2023 – Present

- Manage 25+ active client accounts simultaneously, delivering consistent first-page rankings across competitive keywords in UK, US, and Canadian markets.
- Achieved an average of 40-70% organic traffic growth across client portfolios within 3-6 months of strategy implementation.
- Lead and mentor a team of junior writers and freelance contributors — briefing, reviewing, and editing all content to ensure quality and SEO alignment before publication.
- Run full technical SEO audits: resolve crawl errors, improve Core Web Vitals, fix indexation issues, and optimise XML sitemaps and site speed.
- Execute on-page SEO across all client sites — meta optimisation, header structure, internal linking, schema markup, and semantic content structuring.
- Drive off-page SEO via white-hat link building, digital PR, and authority-building campaigns that consistently improve domain ratings.
- Manage and optimise Google Business Profile (GMB) listings, improving local pack visibility and driving measurable increases in calls and direction requests.
- Pioneer AEO strategies getting clients featured inside ChatGPT, Perplexity, Google AI Overviews, and Bing Copilot responses.
- Build and present monthly performance reports tracking organic traffic, keyword rankings, CTR, and conversion growth.

Raistard

Social Media & Content Manager | Meta Ads

March 2024 – Dec 2024 (Contract)

- Managed social media presence and Meta Ads campaigns for multiple clients across LinkedIn, Instagram, Facebook, and Twitter, driving engagement and qualified lead generation.
- Led a team of writers and designers, overseeing full content calendars and ensuring consistent, on-brand output across all platforms.
- Developed case studies, whitepapers, and ad creatives that directly contributed to measurable client growth and pipeline generation.

- Maintained SEO performance across all written content, ensuring every asset served both the audience and the algorithm.

Ross Mckinley Accountants LTD (UK)

Lead Content Writer

Dec 2021 – March 2023

- Produced website copy, landing pages, and marketing materials for a UK-based accounting firm, building domain authority in a competitive financial services niche.
- Crafted SEO-optimised blog content and social media posts that grew organic reach and strengthened brand credibility.
- Oversaw all content output, maintaining editorial standards and consistent brand voice across every channel.

Personal Touch Pvt Ltd

Senior Executive Content Writer

Jan 2021 – Feb 2022

- Wrote and edited high-quality content across websites, social media, and email newsletters for a range of client brands.
- Upheld the highest editorial standards while adapting tone and style to match each brand's voice.
- Contributed to campaign brainstorms and creative strategy sessions that shaped key marketing activations.

EDUCATION

PMAS Arid Agriculture University, Rawalpindi

Bachelor of Software Engineering

July 2019 – September 2023

A Software Engineering degree is a genuine edge in SEO — and a rare one. It means I understand how websites are built, not just how they rank. From crawl architecture and rendering behaviour to structured data implementation and server-side issues, my engineering background lets me identify and resolve technical problems that most content professionals simply cannot see. It is what separates surface-level SEO from strategy that actually scales.

WHAT I DELIVER

- SEO Audits — full technical, on-page, and off-page audits with clear, prioritised fix plans
- AEO & AI Search — content structured to rank inside Google AI Overviews, ChatGPT, and Perplexity
- GMB Optimisation — local SEO that drives map pack visibility and measurable local growth
- SEO Blog & Web Copy — keyword-rich content that ranks, engages, and converts
- Link Building — white-hat authority-building strategies with lasting domain impact
- Social Media Management — full channel management, content calendars, and Meta Ads campaigns
- Team Leadership — briefing, managing, and quality-controlling junior writers and freelancers
- Editing & Proofreading — polished, error-free copy that upholds brand voice and editorial standards
